Falling into fall

Natures paths have been our haven for many months. We've discovered this is a place that gives back, fills us with energy and wrap us in a calm sense of happiness. We've been gently pushed into finding and seeing the meaning in the littlest of things. The landscapes and sceneries just outside our front doors, soon filled with everchanging, enchanting brown and green colours – oh how easy it is indeed to now 'fall into fall'.

Take a walk with us into the new season and into a world of wonderful and colourful headwear from your favourite brands; Christine, Boho & Viva.

All have they prepared a unique collection of comfortable and stylish models in fashionable and inspiring colour schemes. Look out for a new

Christine paisley print and the sweetest Gonzo (hint: he's furry, big and so lovable) on page 10. Viva will take you behind the scenes at the cinema for a show of classic turbans - with just that little extra detail.

And Boho, well this range requires hardly any introduction, but have a look at the new Scarlett sets – we're in love already!

Choosing your headwear for the first time can be overwhelming – “what do I need, how will I look and how will it make me feel”?

Headwear comes in many shapes and forms and your choice should make you look and feel like the person you are by heart – with your new beautiful hair free silhouette.

Maybe you're fighting a battle and need a powerful and comfortable headwrap-statement. Maybe you are looking to add new colours and models to your headwear wardrobe, now that this is your everyday hair alternative. Or, maybe you are just looking to cover your hair for personal or fashionable reasons.

We welcome you all and hope to inspire you to make your new 'season' into; your own kind of wonderful!

CHRISTINE HEADWEAR bamboo collection

The bamboo-viscose products from Christine Headwear are made in the unique and functional Caretech® Bamboo quality.

Bamboo-viscose fabric has many fantastic features and the soft and comfortable quality is actually used to form the largest part of the Christine Headwear product range.

The Caretech® Bamboo is supremely soft, silky and luxurious to the touch. It is breathable and thermo-regulating so you remain comfortable and dry during both summer and winter temperatures. The fabric is more moisture absorbent than cotton and quickly removes the moisture from the skin and releases it.

Further the eco-friendly Caretech® Bamboo products are extremely gentle to wear and highly suitable to use against sensitive skin.

CHRISTINE HEADWEAR underwear collection

The Christine underwear top is a unique and comfortable underwear piece developed with both intelligent features and materials.

Comfort in clothing, underwear in particular, is often dictated by your body temperature. It can, however, be difficult to maintain a balance at 37.5-degrees when our body goes through changes, either due to surgery, treatment for critical illnesses or when suffering Alopecia.

It can be hard to control the hot and cold flushes that makes us so uncomfortable, but this top will help you! The 37.5® Technology used in the fabric material helps control your core temperature, regulates it and will keep you in the optimal 37.5-degree comfort zone at all times.

For further comfort and convenience, we've constructed the top so you can get dressed without having to pull it over your head, which can be difficult when having gone through a breast or under arm surgery. The neck line is beautifully placed and has an elegant and feminine silky satin trim.

A truly comfortable and practical top made particularly for your wellbeing.

CHRISTINE HEADWEAR soft lift hat

The Soft Lift Hat from Christine Headwear is a revolutionary design protected headwear piece, which will provide the perfect fit and lift under your wigs and headwear.

A small hat that will make a big difference to the look and feel of your head coverings, as it gently lifts and adds a fine, natural volume to the back of the head.

The soft, breathable and light 37.5® fabric material will ensure you stay comfortable as it helps the covered area maintain an optimal 37.5-degree temperature - regardless of how you choose to cover it.

To make this clever little lift, a light mesh pad has been inserted under a soft top layer.

This will add a beautiful rounded shape to the back of your head whilst leaving you comfortable still, feeling nothing but carefully and gently protected.

The results are nothing but fantastic and you'll find your headwear and wigs will get a brand new, fine and elegant look to it.

Only the best is good enough

The Christine products are CE labelled, which means they classify as medical devices according to EU Directive (MDR 2017/745) concerning medical devices.

By definition of the EU Directive a medical device is a material intended to be used by women for the purpose of protection of the skin against the heat, sun and the cold. Further, it is intended to relieve physical and mental discomfort resulting from hair loss as well as a general protection of women, who have lost their hair due to chemotherapy and other hair loss related illnesses. In addition, the CE mark is your guarantee that the products are appropriate and safe to use and wear.

We recommend handwashing your new headwear and laying it flat to dry. Do not tumble dry.

This catalogue is printed on FSC and Nordic Ecolabel certified paper.

37.5® TECHNOLOGY

Comfort in clothing is dictated by our temperature and the humidity next to our skin, known as our microclimate. When our microclimate balances at 37.5% relative humidity and our core temperature balances at 37.5 degrees, we are in the optimal comfort zone.

37.5® Technology headwear and clothing helps control the core temperature by accelerating the movement of moisture vapour before it can turn to liquid sweat.

If we get warm and damp, the 37.5® products will dry faster – up to 5 times faster than a similar product without 37.5® Technology. And, when moisture is removed from our headwear and clothing, we stay warmer when it's cold and cooler when it's warm.

The active particles used in 37.5® are derived from natural sources such as coconut shells and volcanic minerals. A combination of these special sources and the product features makes this a rather unique and intelligent headwear and clothing line.

Find further information about product care and safety on our website.

CARETECH® MILK CARETECH® BAMBOO

CARETECH® BAMBOO w/ALOE VERA CARETECH® SUPIMA COTTON

The Christine Headwear Bamboo, Milk and Supima fabrics are all labeled with a Caretech® tag.

Caretech® is your assurance that the headwear made from these specific fabrics are not only CE and Standard 100 by Oeko-Tex certified, but also developed and produced especially for the Christine Headwear collections. Caretech® because we believe in providing a high quality, exclusive and conscious headwear collection, for the beautiful you.

The Christine Headwear bamboo-viscose, Supima cotton, linen and Body Balance products are Standard 100 by Oeko-Tex certified. As is the Viva Headwear cotton-viscose line.

The Oeko-Tex certification is your assurance that the headwear product does not contain or give off any harmful substances.
